

**Bitrate up to 150 Mbits**

100 GB of Internet traffic on Day 1 (option [“100 GB a day”](#)) + **60 GB Internet traffic** (option [“Internet for 14 days \(within Russia\)”](#))  
**1 200 RUB/month** – monthly charge for [“Internet-VIP”](#) option.

The package includes a 4G Wi-Fi router, a SIM card with “MTS Connect-4” rate plan and “100 GB a day”, “Internet for 14 days (within Russia)” and “Internet-VIP” options.

Starting balance – **2 599 RUB**.

Upon activation of the package, **2 598 RUB** will be written off for “Internet for 14 days (within Russia)”.

Option “Internet for 14 days (within Russia)” will be deactivated upon the expiry of the 14-day period.

On Day 15 access to the Internet will be suspended. Users who try to go online will be redirected to [internet.mts.ru](http://internet.mts.ru) where they will be able to top up their account and activate basic Internet option – “Internet-VIP”.

Following the activation, the Internet traffic is provided under the “100 GB a day” option; no fee is charged for activation and the use of the option. The option will be automatically deactivated after you have used up the 100 GB package or within 1 (One) day following the activation of the package. After the expiry of the option, you will be getting the Internet traffic under the option “Internet for 14 days (within Russia)”.

All prices include VAT.

Wireless access to the Internet with the help of the 4G Wi-Fi router is only possible with the MTS SIM card.

The initial balance is sufficient for “Internet for 14 days (within Russia)” payment if you do not use other paid services and options.
